

Antistatic Agents

Antistatic Agents										
Name	Chemical class	Supply form		Food Approval		Internal/ External		PVC Application		
								rigid	semirigid	flexible
MARKSTAT 51	polyglycol ester	liquid	liquid	no/ no	no/ no	internal			✓	
MARKSTAT 60	polyglycol ester complex salt	liquid	liquid	no/ no	no/ no	internal		✓		✓
MARKSTAT 88	alkohol amin complex salt	liquid	liquid	no/ yes						
MARKSTAT AL 14	quarternary ammonium salt	liquid	liquid							

Inhibitor

Inhibitor			
Name	Chemical class	Supply form	Application
MARK® I 489	benzotriazole	liquid	Provide good pot-life and can be used for foamed applications as inhibitor

Processing additives

Lubricants													
Name	Chemical Class	Supply form		Food Approvals		Mode of action		Calendering		Extrusion		Injection moulding	
		solid	liquid	EU	FDA	internal	external	rigid	plasticized	rigid	plasticized	rigid	plasticized
MARKLUBE® 280	Amide wax (Melt. Point 137°C)	✓		✓	✓	3	1	1	1	1		1	
MARKLUBE® 366	Paraffin oil		✓	✓	✓		1			1	1	1	1

National approvals for chemicals may vary and the specific use in applications have to be observed and therefore please request actual regulatory information from our Regulatory Compliance Team.

1 very good 2 good 3 satisfactory
